Dumps Questions CAS-004

Exam Name: CompTIA Advanced Security Practitioner (CASP) CAS-003

Certification Provider: CompTIA

Exam: CompTIA Advanced Security Practitioner (CASP) CAS-003

Question #1

DRAG DROP -

Drag and drop the cloud deployment model to the associated use-case scenario. Options may be used only once or not at all.

Select and Place:

Use-case scenario	Cloud deployment model		
Large multinational organization wants to improve elasticity and resource usage of hardware that is housing on-premise critical internal services			
Collection of organizations in the same industry vertical developing services based on a common application stack			
Organization that has an orchestration but that integrates with a large on-premise footprint, subscribing to a small amount of external software services and starting to move workloads to a variety of other cloud models			
Marketing organization that outsources email delivery to An online provider			
Organization that has migrated their highly customized external websites into the cloud			
Community cloud with IaaS	Community cloud with PaaS	Community cloud with SaaS	Hybrid cloud
Private cloud with IaaS	Private cloud with PaaS	Private cloud with SaaS	Public cloud with IaaS
	Public cloud with PaaS	Public cloud with SaaS	

Correct
 Answer:

Use-case scenario	Cloud deployment model		
Large multinational organization wants to improve elasticity and resource usage of hardware that is housing on-premise critical internal services	Private cloud with IaaS		
Collection of organizations in the same industry vertical developing services based on a common application stack	Community cloud with PaaS		
Organization that has an orchestration but that integrates with a large on-premise footprint, subscribing to a small amount of external software services and starting to move workloads to a variety of other cloud models	Hybrid cloud		
Marketing organization that outsources email delivery to An online provider	Public cloud with SaaS		
Organization that has migrated their highly customized external websites into the cloud	Public cloud with PaaS		
Community cloud with IaaS		Community cloud with SaaS	
	Private cloud with PaaS	Private cloud with SaaS	Public cloud with IaaS

Question #2

DRAG DROP -

A security consultant is considering authentication options for a financial institution. The following authentication options are available. Drag and drop the security mechanism to the appropriate use case. Options may be used once.

Select and Place:

Use case	Security mechanism
Where users are attached to the corporate network, single sign-on will be utilized	
Authentication to cloud-based corporate portals will feature single sign-on	
Any infrastructure portal will require time-based authentication	
Customers will have delegated access to multiple digital services	

Kerberos	oAuth
OTP	SAML

Correct
Answer:

Use case	Security mechanism
Where users are attached to the corporate network, single sign-on will be utilized	oAuth
Authentication to cloud-based corporate portals will feature single sign-on	SAML
Any infrastructure portal will require time-based authentication	OTP
Customers will have delegated access to multiple digital services	Kerberos

Question #3

An infrastructure team is at the end of a procurement process and has selected a vendor. As part of the final negotiations, there are a number of outstanding issues, including:

1. Indemnity clauses have identified the maximum liability
2. The data will be hosted and managed outside of the company's geographical location

The number of users accessing the system will be small, and no sensitive data will be hosted in the solution. As the security consultant on the project, which of the following should the project's security consultant recommend as the NEXT step?

- A. Develop a security exemption, as it does not meet the security policies
- B. Mitigate the risk by asking the vendor to accept the in-country privacy principles
- C. Require the solution owner to accept the identified risks and consequences
- D. Review the entire procurement process to determine the lessons learned

Correct Answer: C
