Question #3

You create a Power Apps portal to provide training and documentation for students. Students create a profile on the portal and then select and pay for courses.
You plan to add free courses to the training portfolio. Free courses must be automatically available to all students when they sign in.
You need to assign default permissions to students.
What should you do?

A. Create a Students web role and set the Authenticated Users Role option to true. Assign the web role to each registered user.

B. Create an entity for managing free courses. Create entity permission records to provide access to entity records for free courses and assign the entity permissions to users when they register on the portal for the first time.

C. Create an entity for managing free courses. Create a Students web role and set the Authenticated Users role option to true. Create appropriate entity permissions to access the free course entity records and assign the entity permissions to the web role.

Correct Answer: A

Question #4

HOTSPOT -
You create workflows to automate business processes.
You need to configure a workflow to meet the following requirements:
- Be triggered when a condition is met.
- Run immediately.
- Perform an action when a condition is met.

You need to create a workflow that automatically sends emails based on a mail merge template. To answer, select the appropriate configuration in the answer area.
NOTE: Each correct selection is worth one point.
Hot Area:

Answer Area

Workflow Requirement	Configuration Option
Be triggered when a condition is met.	Publish workflow. Subject contains data. Trigger when a Power Automate button is pressed.
Run immediately.	Approve the workflow. Configure the workflow to run now. Configure child workflow to run now.
Perform an action when a condition is met.	Send an email. View chart. Update a security role.

Correct
Answer:

Answer Area

Workflow Requirement	Configuration Option
Be triggered when a condition is met.	Publish workflow. Subject contains data. Trigger when a Power Automate button is pressed.
Run immediately.	Approve the workflow. Configure the workflow to run now. Configure child workflow to run now.
Perform an action when a condition is met.	Send an email. View chart. Update a security role.

Question #5

HOTSPOT -
You are a Dynamics 365 Customer Service administrator.
You need to configure the following automation for the sales team:
- Send an email when the status changes on an Opportunity.
- Text the sales manager when an Opportunity is created.

Create a Wunderlist task when an Opportunity is open for 30 days.

Which tool should you use for each requirement? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Automation	Tool
Email when the status changes.	Dynamics 365 workflow Microsoft Flow Business Process Flow
Text when the Opportunity is created.	Dynamics 365 workflow Microsoft Flow Business Process Flow
Create a Wunderlist task.	Dynamics 365 workflow Microsoft Flow Business Process Flow
